

```
>>> chat.chat("Draw an intricate piece of ASCII art")
```

Here's an intricate piece of ASCII art of a wolf:

```
      .--.  
    |o_o |  
    |:_/ |  
  //      \ \  
  ( |      | )  
  /'\_    _/\  
  \__)=(__/
```

Let me know if you'd like something different!

LLMs aren't bad, they're jagged
